

DATASHEET

Code:	SFI235
Product:	Automatic wrist sphygmomanometer in accordance with European standards 93/42/EEC
Content:	1 Digital WRIST sphygmomanometer; 2 x AA batteries

Technical details:

Method of measurement:	oscillometric
Measurement range:	pressure 0 280 mmHg; heart rate 40-199 beats/minute
Pressure sensor:	semiconductor
Accuracy:	pressure +/- 3 mmgh heart rate: +/-5% compared to measurement
Inflation:	automatic with pump
Deflation:	automatic pressure release valve
Memory:	2 x 120 memories
Power off:	3 minutes after the last press of any key
Operating environment:	5°C - 40°C, 15%-93% UR max
Conservation environment:	-25°C -70°C, < 93% UR max
Power source:	2 LR03 (AAA) 1.5 V alkaline batteries included
Accessories:	Plastic case included
Size:	64 x 63 x 26 mm
Weight:	130 g
Wrist circumference:	13,5 – 19 cm
Use:	Adults

This device is manufactured to meet European blood pressure monitors:

EN1060-1 EN1060-3 IEC8061-2-30 ISO81060-1 IEC60601-1-11-IEC60601-1 IEC60601-1-2

It is advisable to read the user manual carefully
